# Introducing FRG Home Integrated Security Solutions

**Protecting your home and your family is our top priority. We use the latest wired and wireless two-way technology to secure your property with minimal fuss and disruption.**

Our fully customisable systems can be installed in new builds, existing homes and even listed buildings, offering an intelligent and modern security system that you can monitor and control from anywhere in the world using the ProControl+ app.

Whatever your security needs, we are here to listen, offer honest advice and deliver a first-class service every time.

**WE LISTEN - WE RESPOND - WE DELIVER**

## Benefits

Peace of mind that your home is always secure

Wide range of wired & wireless security & life safety products

Scalable solutions for any property size

Tailored systems designed around your needs

Smartphone app for on the go monitoring

Visual deterrent to ward off potential intruders

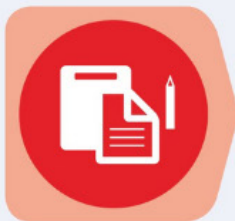

Pet tolerant technology

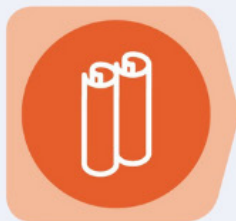

User friendly programming & intelligent arming

## How we do it

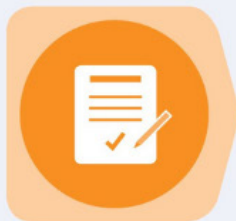

### DESIGN CONSULTATION

- A trained professional will work with you to design the right system to protect your home & family

### QUOTATION

- You will receive a detailed proposal for your security system

### CONFIRM YOUR ORDER

- Confirm that you wish to proceed with the installation of your home security system

### INSTALLATION

- Your new home security system will be professionally installed by skilled engineers
- The engineers will show you how to use the system & configure the mobile app on your device

### MAINTENANCE

- To keep your system in full working order our engineers will visit once a year to check all components & make sure it is functioning to your exact requirements

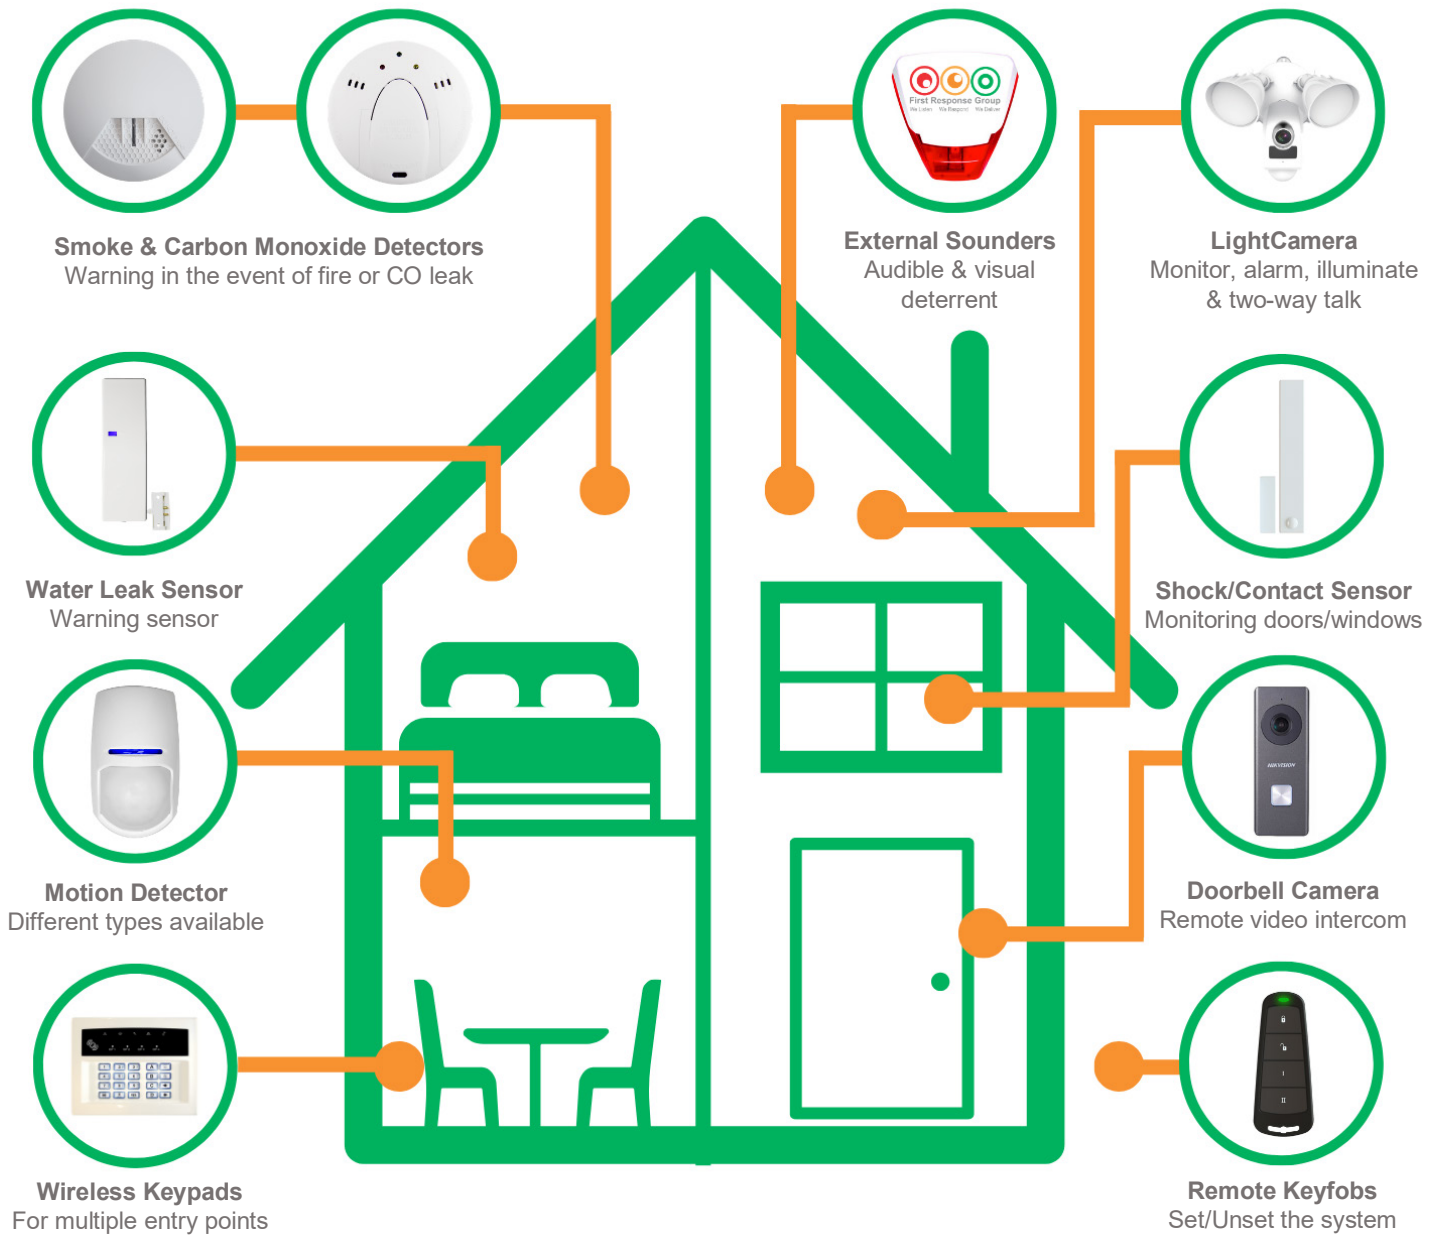

# Protecting your home and family

No matter the size of your property, our scalable solutions provide the security you need in every corner of your home.

The system control panel can sync with up to 64 wireless and a further 34 wired devices, including pet tolerant motion detectors, shock sensors and life safety devices, all of which can be connected and accessed from anywhere in the world using the ProControl+ app on your device.

## System components available for your home

### User friendly

From changing codes to adding keyfobs, each function can be easily programmed

### Battery monitoring

Each wireless device is monitored and informs you when to replace the battery

### Intelligent arming

The system can detect and automatically set 'home' and 'away' modes

# Why FRG?
