

# SMARTSITE CCTV TOWER RANGE

**Our rapid deployment SmartSite CCTV Towers are an innovative, flexible and efficient mobile surveillance solution, ideal for securing a temporary site - construction, infrastructure, vacant property and more...**

These eco-friendly and reliable CCTV towers are easily transportable and can be set up in a matter of minutes, even in challenging locations. They provide continuous monitoring without requiring a power source, making them ideal for remote or hard-to-reach areas.

## KEY FEATURES

- ✔ Up to 100m diameter range
- ✔ 3 fixed CCTV cameras - full 360° surveillance
- ✔ 6m telescopic mast tower - visual deterrent
- ✔ Rapid deployment - set up in minutes
- ✔ Solar powered - total renewable power
- ✔ 110v / 230v mains power option
- ✔ Loudspeaker for audio challenge
- ✔ AI powered analytics - minimises false alarms
- ✔ HD imagery - day and night
- ✔ Fully weatherproof
- ✔ Customisable technology - including ANPR
- ✔ Solar Methanol Hybrid option available
- ✔ 24/7 monitoring by FRG NSI Gold accredited Control Room

Construction

Rail

Highways

Vacant Property

Agriculture

Events

**MAKING SECURITY A TRUSTED  
PART OF YOUR TEAM**

## SUPERIOR PROTECTION 24/7

The system features three fixed turret CCTV cameras mounted at the top of the 6m telescopic mast, delivering high-definition imagery around the clock.

Our towers are fully customisable, offering the latest CCTV analytic technology, ensuring we always deliver the right solution for your site.

- ✔ Up to 100m total diameter range 24/7
- ✔ Motorized lens 2.7 - 13.5mm
- ✔ Infrared night vision
- ✔ AI triggered alarms with human/vehicle filtering
- ✔ Fully customisable camera options including ANPR
- ✔ Loud speaker for audio messages and alarms
- ✔ 3/4G Router for remote connectivity
- ✔ 30 days HD recording capacity - 9hrs per day recorded events or up to 14 days continuous recording (settings dependent)
- ✔ Time scheduling software to limit operation hours if required
- ✔ Timelapse imagery available

## SELF-POWERED

Over 600w of solar power is fitted as standard with an optional 3rd panel upgrade available to improve Winter solar coverage.

The solar panels charge the internally batteries making this a totally renewable, and emission free power option.

For areas where solar coverage cannot be guaranteed, we offer a vandal resistant solar methanol hybrid tower fuelled with enough power to last a full year.

- ✔ Solar telemetry and power management with alarms
- ✔ Seven day back up battery to guard against a unexpected poor solar period
- ✔ 110v / 230v mains power option for sites with easily accessible power source
- ✔ Wind turbine upgrade available for applicable sites
