

ADVANCED SECURITY TECHNOLOGY

# SECURITY FOG SYSTEMS

**CAN'T SEE IT  
CAN'T STEAL IT**

## KEY FEATURES

### Residue Free

Advanced fog ensures spaces remain clean and unaffected while providing maximum protection

### Food Safe

Safe to use in environments where hygiene is paramount

### Non Flammable

Providing safe and reliable protection without fire risk

### Odour Free

Maintains a pleasant environment while ensuring maximum protection

### Lasts 20/30 Minutes

Extended protection against intruders in unventilated spaces.

**Security fog is a defensive mechanism that rapidly deploys a thick, disorienting mist to obscure vision and hinder intruders, creating an immediate barrier that deters theft and vandalism.**

This fog is harmless, leaving no residue or odour, ensuring the protection of your property without causing any lasting effects on the environment or your assets.

FRG have partnered with Smoke Screen, the UK's premier security fog manufacturer, to offer reliable and effective solutions that combines innovation and experience to ensure your security needs are met with the highest standards of protection.

# SECURITY FOG RANGE

Introducing the Sentinel security fog generator range. These machines can protect environments ranging from small offices to large warehouses, showrooms and public venues.

## SC20

**20M2 IN  
15-20 SECONDS**

**Applications:**

Kiosks, containers and boardrooms

## COMPACT PROTECTION

Economical, yet fiercely effective. This ultralightweight unit, weighing under 10 kg, offers powerful protection in a micro design.

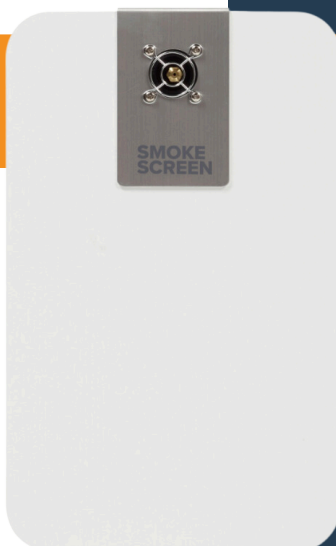

For added savings, it's available without batteries, providing cost-effective security without compromise.

## S35

**30-50M2 IN  
15-20 SECONDS**

**Applications:**

Jewellers, small retail stores, garages, and banks/ATMs

## ULTRA VERSATILE

This isn't just another compact security device; it's a game-changer. Deploy multiple units to create an impenetrable defense that leaves intruders baffled.

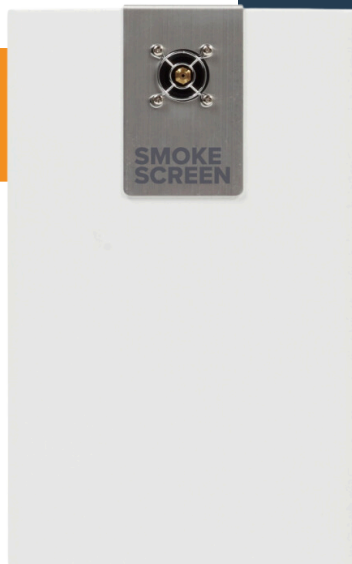

Ideal for offices, and retail spaces, this small but mighty unit offers unbeatable value. With an internal battery backup, it's ready to protect even during power outages.

## S55

**50-70M2 IN  
15-20 SECONDS**

**Applications:**

Jewellers, medium retail stores, garages, and banks/ATMs

## STEADFAST RELIABILITY

Ready in just 10 minutes, this unit's internal battery ensures immediate protection without delay. The S55 isn't just quick - it's reliable. Even during a power outage, it stays operational for 40 minutes, offering uninterrupted defense. This unit performs without compromise.

**MAKING SECURITY A TRUSTED  
PART OF YOUR TEAM**

## S70

**70-100M2 IN  
15-20 SECONDS**

**Applications:**

Warehouses, medium  
retail spaces and  
showrooms

## CONTINUOUS SHIELD

This powerhouse doesn't just fire once; it delivers four fog barrages on a single bottle of fluid. That's four chances to stop intruders in their tracks and send them running.

Each burst is a clear "no entry" signal, forcing intruders to back off.

## S100

**100-150M2 IN  
15-20 SECONDS**

**Applications:**

Large warehouses,  
large retail spaces,  
and showrooms.

## UNPARALLELED ENDURANCE

Engineered with cutting-edge technology, the S100 isn't just an upgrade - it's a revolution in security. For an incredible 70 seconds, it unleashes a relentless torrent of fog, turning your space into an impenetrable fortress.

With the S100, you get supercharged protection that outlasts any intruder's resolve.

## S150

**150-200M2 IN  
15-20 SECONDS**

**Applications:**

Protects anywhere

## THE GOLD STANDARD

This unmatched fog generator redefines protection with its innovative dual-jet system. It's more than security; it's a powerful statement of strength.

Designed specifically for high-risk environments where compromise isn't an option, the S150 sets the gold standard in fog security solutions.

# DEFENDER

## DEFENDER

## BATTERY POWERED VEHICLE PROTECTION

This 12V powerhouse transcends conventional vehicle alarms, emerging as a proactive guardian for your valuable assets.

Designed for vehicles, at the first sign of intrusion it responds with a rapid fog deployment, creating an immediate and disorienting barrier, turning your vehicle into unwelcome territory for intruders.

**10M2 IN  
15-20 SECONDS**

**Applications:**  
Vehicles
