Introduction

First Response Group (FRG) recognizes the importance of environmental protection and sustainability in all aspects of its operations.

This Environmental Policy outlines FRG's commitment to minimizing its environmental impact and promoting sustainable practices.

FRG is dedicated to playing our part in the global effort to combat climate change. Through this policy, we aim to demonstrate our commitment to sustainability, reduce our environmental impact, and ensure a better future for generations to come.

Policy Statement

FRG is committed to:

Complying with all relevant environmental legislation, regulations, and standards.

Minimizing its carbon footprint and reducing greenhouse gas emissions.

Conserving natural resources and reducing waste generation.

Promoting environmental awareness and responsibility among employees, contractors, and stakeholders.

Continuously improving its environmental performance through the implementation of effective environmental management systems and practices.

Environmental Strategy

Energy Efficiency: FRG will strive to reduce energy consumption by implementing energy-efficient technologies, optimizing building operations, and promoting energy conservation practices.

Waste Reduction:

FRG will minimize waste generation by implementing waste reduction measures, such as recycling programs, waste segregation, and the use of reusable materials and packaging.

Water Conservation:

FRG will conserve water resources by implementing water-saving technologies, such as low-flow fixtures and promoting water conservation practices.

Transportation:

FRG will reduce the environmental impact of its transportation activities by promoting the use of fuel-efficient & electric vehicles, optimizing vehicle routing, car sharing schemes and encouraging alternative transportation methods, such as cycling and public transport where appropriate.

Procurement:

FRG will source products and materials from environmentally responsible suppliers, prioritise the use of recycled and sustainable materials, and minimise the environmental impact of its procurement activities.

Environmental Awareness:

FRG will raise awareness about environmental issues among employees, contractors, and stakeholders through training programs, informational materials, and communication initiatives.

Continuous Improvement:

FRG will regularly monitor and evaluate its environmental performance, set targets and objectives for improvement, and implement corrective actions as necessary to achieve its environmental goals.

Responsibilities Management:

The Senior Leadership Team of FRG is responsible for ensuring the implementation of this Environmental Policy and providing the necessary resources and support to achieve its objectives.

Employees and Contractors:

All employees and contractors of FRG have a responsibility to comply with this Environmental Policy, support its implementation, and actively participate in environmental conservation efforts.

Stakeholders:

FRG will engage with its stakeholders, including clients, suppliers, and the community, to promote environmental responsibility and collaboration in addressing environmental challenges.

Review and Monitoring:

This Environmental Policy will be reviewed annually to ensure it remains relevant and effective in guiding FRG's environmental management efforts.

FRG will monitor its environmental performance regularly, track progress against its environmental objectives, and make adjustments as necessary to improve its environmental impact.

Conclusion:

FRG is committed to promoting environmental sustainability and reducing its environmental footprint. By adhering to this Environmental Policy and implementing its environmental strategy, FRG aims to contribute to a cleaner, greener future for all.
