**Publication Date: 2<sup>nd</sup> of December 2025**

# Commitment to achieving Net Zero

First Response Group Ltd is committed to achieving Net Zero emissions by 2050.

## Baseline Emissions Footprint

<b>Baseline Year: 2021/2022</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
<i>First Response Group are reporting upon all the required fuel sources as per SECR requirements. These are calculated from invoices for electricity, gas and fuel.</i>	
<b>Baseline year emissions: 2021/2022</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
Scope 1	331.7
Scope 2	11.9
Scope 3 (Included Sources)	1.1
<b>Total Emissions</b>	<b>344.70</b>

## Current Emissions Reporting

<b>Reporting Year: 2024/2025</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
Scope 1	164.79
Scope 2	8.09
Scope 3 (Included Sources)	0
<b>Total Emissions</b>	<b>172.88</b>

## Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 75 tCO<sub>2</sub>e by 2030. This is a reduction of 56.62%

**Scope 3 emissions** are not currently measured however: we are in the process of obtaining the data for our SECR and ESOS reports due at the end of the current financial year (2026)

Progress against these targets can be seen in the graph below:

## Carbon Reduction Projects

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2022 baseline. The carbon emission reduction achieved by these schemes equate to **171.82 tCO<sub>2</sub>e**, a **48%** reduction against the 2022 baseline and the measures will be in effect when performing the contract.

Completed Carbon Reduction Measures to date include continual certification to ISO 14001, the removal of gas boilers, transition from petrol/diesel vehicles to Hybrid or full Electric Cars. Our offices are fitted where practicable with PIR controlled LED lights, areas where this is not possible have been fitted with LED lights, Inefficient water heaters have been replaced. Green Electricity Supplier Sourced and utilised.

### Future carbon reduction initiatives

In the future we hope to implement further measures such as:

- Replace additional vehicles with Hybrid or Electric vehicles where reasonably practicable by 10% per annum.
- Replace Plastic cups with one time use on water dispensers.
- Route and Load Optimisation
- Implement Monitoring and targeting Transport
- Reduce Paper Usage by Digitalising Documents
- Implement, Training, Facilitation and Incentivisation
- Obtain live data on supply chain emissions for SECR report

## **Declaration and Sign Off**

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate [Government emission conversion factors for greenhouse gas company reporting](#).

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

### **Signed on behalf of the Supplier:**

Ryan Powell, Group Managing Director

Date: 15/12/2025
