Total Security, Risk & Facilities Management

# CONSTRUCTION, INFRASTRUCTURE & UTILITIES SOLUTIONS

# ABOUT FRG

**First Response Group**  
Total Security, Risk & Facilities Management

**Founded in 2007, First Response Group (FRG) is a leading site security specialist offering comprehensive services nationwide.**

We provide expert security solutions throughout the entire project lifecycle, ensuring the highest standards of protection and peace of mind for our clients. Committed to reliability, innovation, and tailored approaches, FRG meets the unique needs of every project with precision and care.

Our extensive experience includes supporting major national infrastructure projects, such as critical rail and road schemes, large-scale design and build projects, and major utilities initiatives, demonstrating our capability to handle complex and high-stakes environments.

## FULL LIFECYCLE PARTNERSHIP

[www.firstresponsegroup.com](http://www.firstresponsegroup.com)

## OUR UNIQUE APPROACH

Expert support from start to finish, ensuring compliance, transparency, and continuous improvement.

Unique challenges? Solved. Cutting-edge tech, upskilled staff and agile service delivery.

We save you money, prevent losses, streamline operations, and enhance your reputation.

**MAKING SECURITY A TRUSTED PART OF YOUR TEAM**

**WE LISTEN**  
**WE RESPOND**  
**WE DELIVER**

# SECURITY PERSONNEL SOLUTIONS

We recognise the unique security needs of construction projects and offer specialist personnel to meet these challenges and proactively ensure site safety. Our security officers are trained to provide exceptional protection and maintain the safety of valuable assets, materials, and equipment on-site, minimising potential losses and project downtime.

Our security personnel solutions include:

- Security officers
- Traffic marshal & gatehouse services
- Mobile security patrols
- Keyholding & callout services
- Security Operations Centre (SOC) Management
  
- Full uniform and site-specific PPE
- Enhanced DBS checks
- Fully trained & First Aid qualified
- Drug & alcohol compliance
- Advanced First Aid upskilling as required

## SCREENED, VETTED AND TRAINED

Our SIA licensed security officers undergo stringent recruitment & vetting processes prior to working on site.

FRG are proud to be an ACS Pacesetter. Only Approved Contractor Scheme security guarding companies scoring in the top 15% in Security Industry Authority (SIA) benchmarking and assessments are eligible to join this elite group.

## NSI GUARDING GOLD

NSI Guarding Gold is the mark of approval for the elite reflecting our commitment to high standards of service, integrity, technical expertise and professionalism.

# CANINE SECURITY TEAMS

Canine security provides an extra layer of protection for your sites, offering a visible and highly effective deterrent against trespassing, theft, and vandalism.

## OUR HANDERS ARE

- Dedicated professionals working to a professional code of conduct and site-specific assignment instructions
- Highly trained
- Fully uniformed
- Routinely assessed through continuous in-house training and certification through Highfield accreditations.
- Focused on dog welfare
- Supported 24/7 by the FRG Control Centre

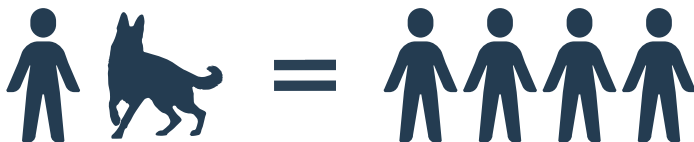

## WHY CHOOSE A CANINE SECURITY TEAM?

**Exceptional awareness** – Canines possess heightened senses of smell, hearing, and sight, enabling them to detect intruders or concealed individuals with remarkable accuracy.

**Force multiplier** - One canine security team can replace up to four patrolling security officers.

## NASDU MEMBERS

NASDU is recognised throughout the private security industry as the leading authority in setting standards for security dog users. They develop and promote standards, training and education in the private security dog sector and provides guidance to members and users.

# TECHNOLOGY SOLUTIONS

We leverage advanced technology to enhance the security of construction sites. Our innovative solutions provide comprehensive monitoring and rapid response, ensuring that your site is protected around the clock.

## CCTV INSTALLATIONS

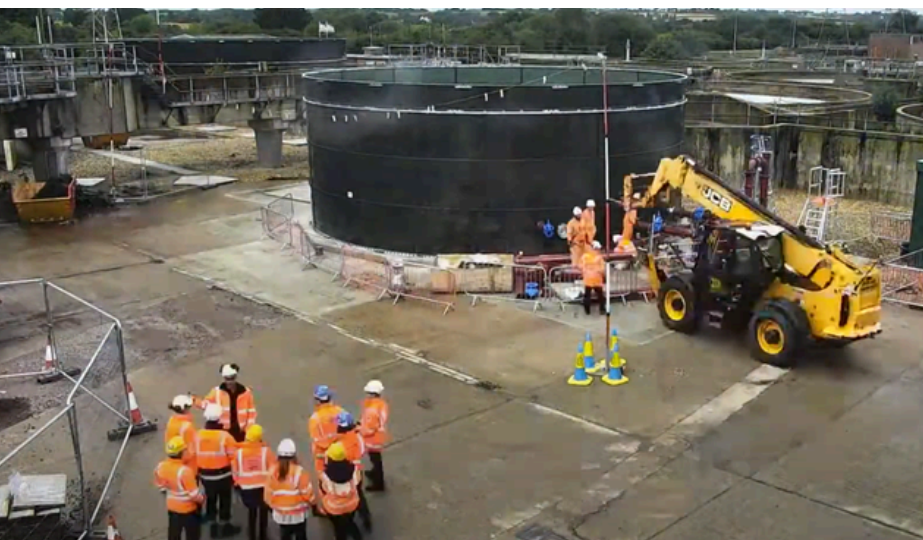

### FRG SMARTSITE HD PRO

Using simple configurations our temporary SmartSite HD CCTV systems can be up and running fast to quickly secure your construction site from potential threat and increase the safety and security of your project.

With a 30m detection range, water and dust resistance and excellent low light performance, you are guaranteed clear and precise HD imagery 24/7.

You can access live camera feeds from your PC and mobile devices while static DVR's record footage to aid incident handling and prosecution. For peace of mind around the clock, we can provide out of hours remote monitoring from the FRG Central Control Room.

- Simple configurations or bespoke, integrated systems
- Clear HD images
- 30m detection range
- Advanced video analytics
- Night vision capabilities
- Thermal and time lapse options
- Wireless options available

## NSI NACOSS GOLD

NSI NACOSS Gold is the premier electronic security systems scheme designed for companies who meet the industry's highest technical standards and maintain a commitment to continual improvement.

NACOSS Gold is a sign of trust, quality, and professionalism, ensuring complete peace of mind.

## WIRELESS VISUAL ALARM SYSTEMS

# FRG SMARTSITE DETECTPLUS

Our advanced Intruder Detection system, FRG DetectPlus, has built in analytics software, superior night vision and an incident detection range of 35m, both day and night.

FRG DetectPlus uses advanced technology to alert only when the threat is real. The system's innovative AI algorithm distinguishes between movements of humans and other environmental elements, delivering photo proof of potential threat every time to reduce the instance of false alarms.

With the built-in ability to create its own mesh network, FRG DetectPlus units can quickly link to provide full protection and the intuitive user platform enables multiple cameras, monitoring hundreds of different sites, without the need for constant supervision

- 24/7 operation
- Visual confirmation every time
- 30m detection range
- Battery and solar powered
- Wireless connectivity
- Built in analytics = no false alarms
- Fast, simple installation

Bridge relays data to control centre.

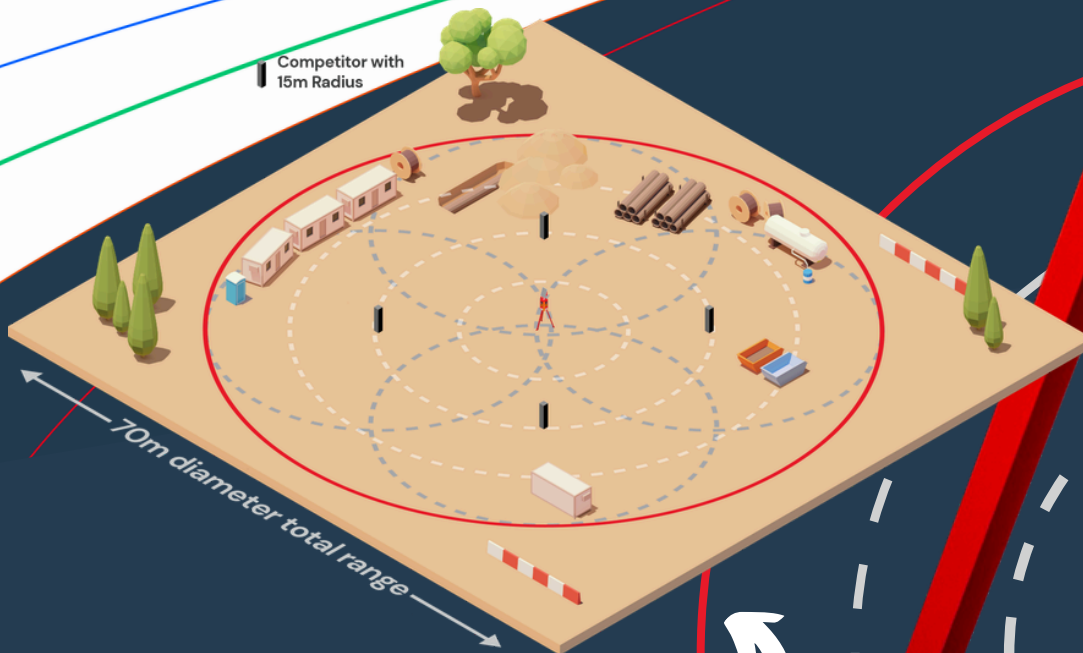

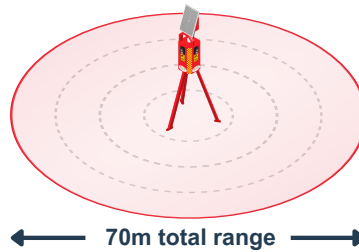

## MOBILE PERIMETER INTRUDER DETECTION

# FRG DETECTPLUS M-PIDS

The DetectPlus M-PIDS (Mobile Perimeter Intruder Detection System) redefines temporary site security with its seamless fusion of cutting-edge wireless detection technology and FRG's crime deterrence expertise.

Designed specifically for construction and infrastructure projects of any scale across the UK, the DetectPlus M-PIDS ensures heightened security while delivering **substantial cost savings** compared to traditional CCTV towers.

- 70m total range - omnidirectional surveillance
- Wireless - solar and battery powered
- Enhanced HD imagery - day & night
- AI analytics - false alarm filtering
- Optimum sensor height
- Rapid deployment
- Striking visual deterrent - 2.3m tall
- Mobile & scalable
- Tamper-proof
- 24/7 monitoring by FRG NSI Gold Control Room

A single M-PIDS unit can often achieve the effective range of up to four competitor units with shorter range.

TEMPORARY CCTV SECURITY TOWERS

# FRG SMARTSITE TOWERS

Our rapid deployment SmartSite CCTV Towers are the ultimate flexible and efficient mobile surveillance solution. Ideal for securing construction and infrastructure projects in the most challenging locations.

These eco-friendly and reliable CCTV towers are easily transportable and can be set up in a matter of minutes, even in remote and complex environments. The system features three fixed turret CCTV cameras mounted at the top of the 6m telescopic mast, delivering high-definition imagery around the clock.

Our towers are fully customisable, offering the latest CCTV analytic technology, ensuring we always deliver the right solution for your site.

- Up to 100m diameter range
- 3 fixed cameras = full 360° surveillance
- Customisable technology - including ANPR
- 6m telescopic mast tower - ultimate deterrent
- Live audio challenge
- Fully weatherproof
- Mains, solar or methanol hybrid options
- Timelapse imagery available

For areas where solar coverage cannot be guaranteed, our vandal resistant solar methanol hybrid tower is fuelled with enough power to last a full year.

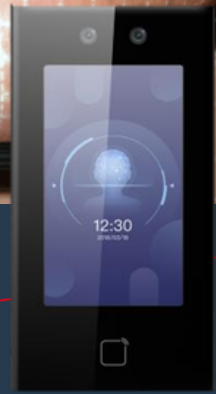

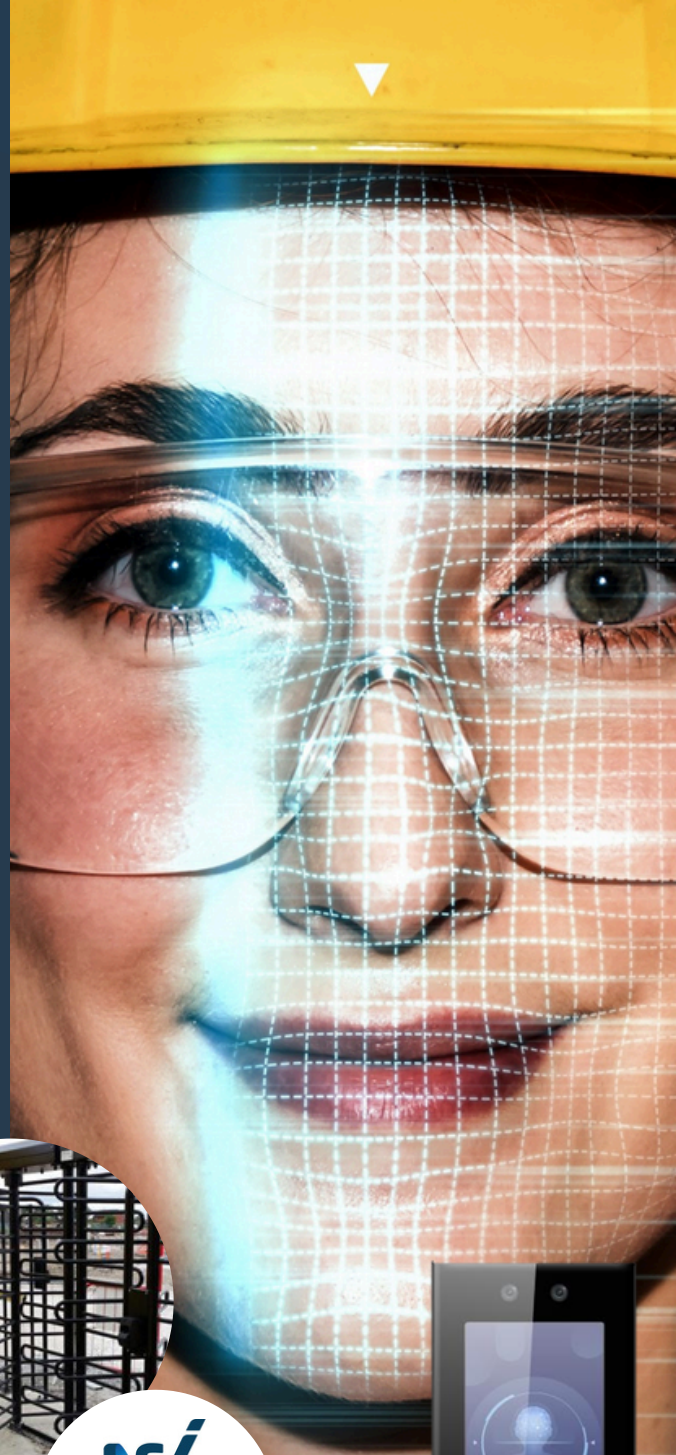

# ACCESS CONTROL SYSTEMS

Effective access control is essential for construction sites to ensure safety, security, and compliance. At FRG, we provide intelligent access control solutions that help manage the movement of personnel, vehicles, and visitors - reducing unauthorised access, protecting valuable assets, and supporting Health & Safety obligations.

Our systems are designed to adapt to the dynamic nature of construction environments. From turnstiles and biometric readers to cloud-based management platforms, we offer flexible solutions that scale with your project. Whether you need time and attendance tracking, subcontractor verification, or a fully auditable access log, our solutions help you maintain control at every stage of the build.

- **Touch free Biometrics** – Reliable, resilient & data protection compliant
- **Proximity systems** – Full range of cards, tokens and keypads
- **Intercoms** – Wired or wireless with audio and/or video
- **Turnstiles** – Full of half height
- **Vehicle barriers** - Automatic ANPR or manual
- Admin training including ID creation
- Integrate with existing systems and mobile apps
- Wide range of reporting capabilities

ADVANCED CABLE THEFT DETECTION

# FRG TREMORS

FRG Tremors is an advanced detection and response solution, exclusive to FRG in the UK, designed to detect and stop cable theft before it happens.

**DETECT:** Seismic tamper sensors detect vibration, tilt and cable movement to laid cable and cable spools in depots.

**REACT:** Immediate alerts are sent directly to FRG Control Centre who alert nominated respondents/patrols

**RECOVER:** Onboard GPS tracking activates for asset tracking and supporting police recovery

FRG Tremors forms part of an integrated security solution working alongside CCTV, M-PIDs, access control, and security patrols for a layered defence.

- Increases risk for thieves = major deterrent
- Increases recovery and conviction rates
- Exclusive to FRG in the UK

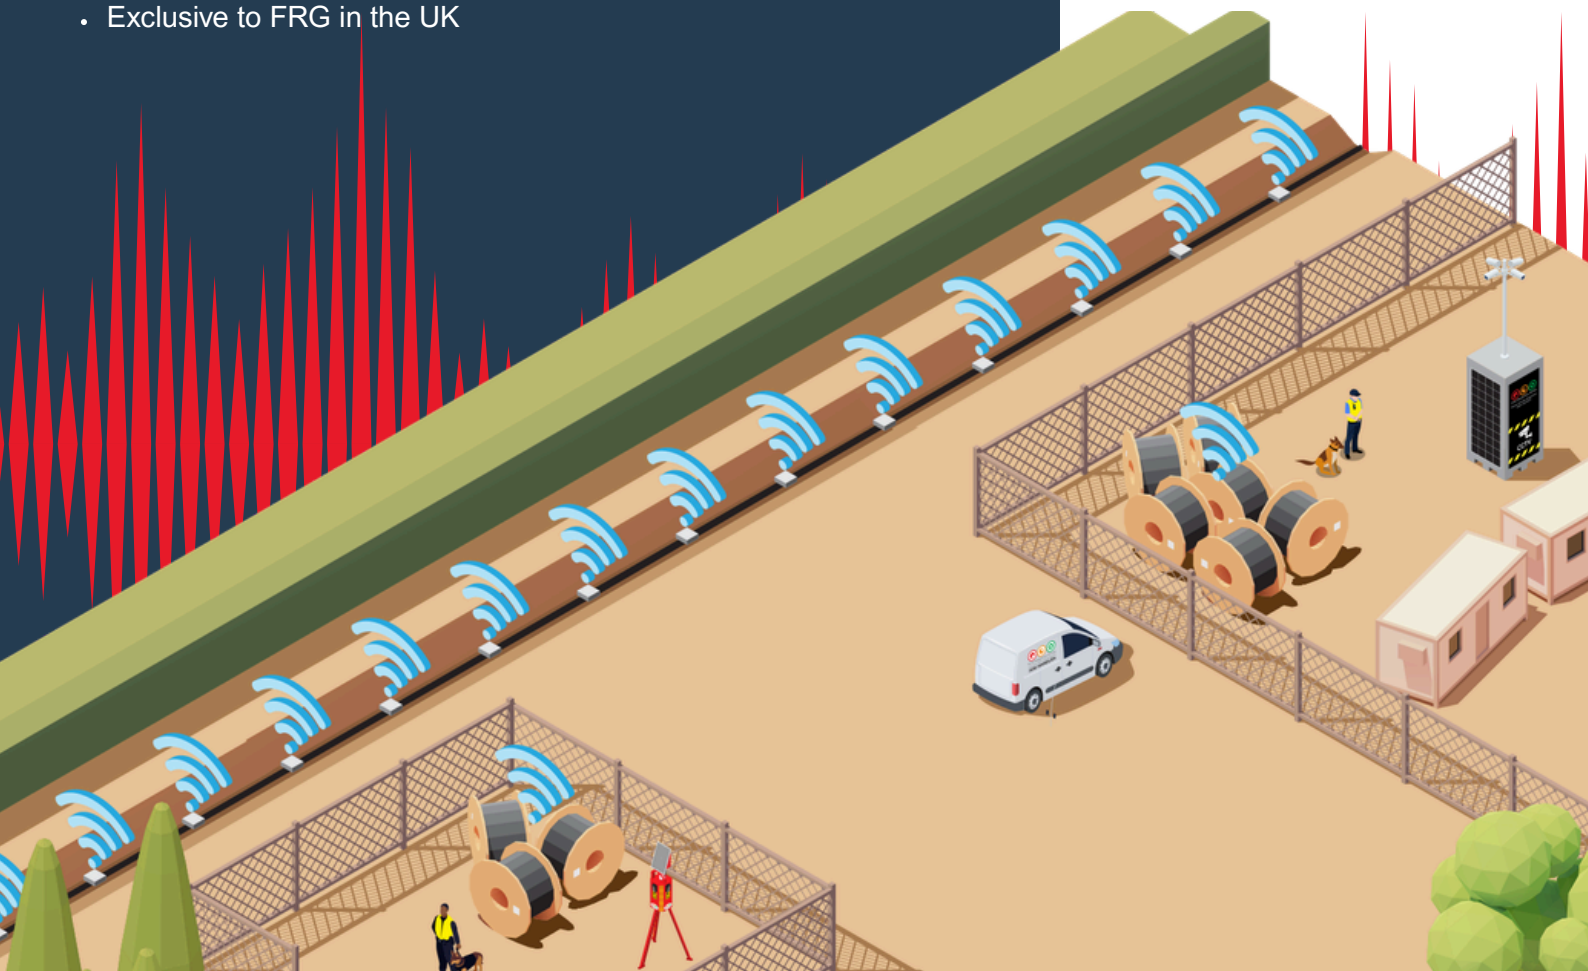

**DETECT**

**REACT**

**RECOVER**

# WHY FRG?

- Construction and infrastructure security specialists
- Nationwide delivery
- Consultative approach with full lifecycle support
- Agile service delivery
- Innovative solutions combining people, process and technology
- Regulatory and insurance compliance experts
- Free and fast no obligation site surveys
- Highly accredited and award winning
- Socially and environmentally responsible
- Industry leaders supporting national projects

## WE ARE EPIC!

Our EPIC values define what matters to us and what it means to be part of Team FRG.

These four guiding principles are at the heart of the way we work with each other, our customers, our service partners and the wider communities in which we operate.
